ADVANCED CERAMIC PROTECTION
FOR PAINT, FABRIC & LEATHER

OUTSTANDING PAINT, FABRIC & LEATHER PROTECTION

PAINT COATING

SmartGuard Gen-3 is a market leading Ceramic formula with over 20 million vehicle applications Worldwide. The product has been tested and approved by 14 manufacturers and supplied into 42 countries. SmartGuard Gen-3 chemistry originates from NASA's original Polysilazane (Ceramic). Smartguard's unique and Advanced formulation is designed to work exceptionally on external surfaces. SmartGuard Gen-3 has led the way in the Automotive sector as it is impervious to the damaging effect of cleaning products and solvents such as Traffic Film Remover (TFR) which are widely used in car hand wash centres.

TECHNOLOGICAL AND PERFORMANCE EXCELLENCE THE FUTURE OF PROTECTION HERE TODAY

During independently conducted and controlled laboratory testing, SmartGuard Gen-3 outperforms other brands by a factor of up to 10. SmartGuard Gen-3 is no ordinary standard ceramic finish. We've taken the ceramic marketplace to a new level. SmartGuard Gen-3 is a complex, advanced formulation ceramic hardened glass finish that bonds into your car's paint surface. Due to its ceramic plus SP2 technology the product also demonstrates amazing adhesion, cohesion and is almost impossible to remove. SmartGuard Gen-3 repels liquids and is extremely resilient to all kinds of damage. * Damage caused by acid rain, pollution, solvents and road salt are no longer an issue. SmartGuard Gen-3 possesses exceptional ability to resist the effects of car washes, solvents, animal and vegetable deposits.†

SPACE EXPLORATION COATING TECHNOLOGY

The SmartGuard Gen-3 system utilises technology so advanced that NASA developed and used it for their space programme. SmartGuard Gen-3 provides exceptional protection in extreme temperatures and the harshest of environments. As such, SmartGuard Gen-3 has been extensively tested and approved by Boeing (Boeing D6-17487 Revision R approval) meaning that the product is certified for usage on Boeing aircraft. Nothing else comes close to the performance of SmartGuard Gen-3. It's our recently enhanced SP2 formulation that makes SmartGuard Gen-3 the industry's stand out product.

BOEING®

PAINT PROTECTION

SmartGuard Gen-3 Evolution is a ceramic-hardened glass finish which bonds to your car's paint surface. Its advanced technology repels liquids and is extremely resilient. Damage caused by acid rain, pollution, solvents and road salt are no longer an issue.

FABRIC PROTECTION

This world-class fabric protection delivers an unbeatable defence against accidental spills and strains. This oliophobic, hydrophbic and hypoallergenic formulation makes fabric easier to clean and helps to keep fabrics looking pristine for longer. Lifetime Guarantee†.

LEATHER CARE

LeatherMaster® Leather Care is specially formulated to clean, protect and maintain your leather interior. Once leather protector is applied, simply wipe leather surfaces clean.

ALLOY WHEEL PROTECTION

SmartGuard Gen-3 Evolution is also the most effective protective product for alloy wheels. This is due to its ability to withstand high temperatures. This helps to protect against the damaging effects of metal particles within the brake pads. These particles break down and form brake dust that makes alloy wheels hard to clean. Where SmartGuard Gen-3 is applied, cleaning the alloy wheels couldn't be easier. No need for abrasive or acid based wheel cleaners. A simple wash is all that is required.

AFTERCARE PRODUCTS

SmartGuard Gen-3 aftercare products have been specially formulated to aid the cleaning process and do not harm the Advanced ceramic SP2 coating, fabric protector or leather coatings. This SmartGuard Gen-3 range of products includes: Ceramic Shampoo, Bird Dropping Remover, Dryclean, Glassclean, Fabric & Leather Cleaner and Leather protector and conditioner. A vehicle wash sponge and microfibre cloth are supplied in an attractive executive case. **subject to your dealers specifications.

A COMPREHENSIVE GUARANTEE AND NO MAINTENANCE MEANS PEACE OF MIND

The unsurpassed and consistent performance means that SmartGuard Gen-3 Advanced coatings come with a standard Lifetime guarantee†. No conserver top-up maintenance is required.

EFFECTIVE ON BOTH NEW AND PRE-OWNED VEHICLES

SmartGuard Gen-3 Advanced helps new cars retain their 'just new' look and revitalises the appearance of pre-owned vehicles. Dirt and grime are more easily washed away, ensuring that your vehicle remains looking newer for longer. This should result in a higher trade in value.

IS SMARTGUARD GEN-3 EVOLUTION ADVANCED ENVIRONMENTALLY FRIENDLY?

Yes. All our packaging is recyclable, and our interior protection is not only CFC free but fully hypoallergenic.

WHAT DO I DO IF I HAVE QUESTIONS ABOUT MY SMARTGUARD GEN-3 ADVANCED COATINGS?

Initially please contact your purchasing dealer who will be able to assist you.

GLOSS

More gloss than the closest rival

SALT

Protects paint gloss against salt exposure

HARDNESS

Superior to the competition

COLD

75% better paint gloss at -10°c
